

## **Revolutionizing the Prevention of Freight Fraud: FreightValidate Launches Siri-Powered Hands-Identity and Compliance Verification System**

At FreightValidate, innovation is our driving force, and we're thrilled to unveil a groundbreaking enhancement to our services – the hands-free Identity & Compliance Verification System! We're bringing the power of voice to your fingertips with Siri integration on our FreightValidate mobile app.

### **How It Works:**

- *Download the FreightValidate App:*
  - Begin by downloading our user-friendly app from the App Store. It's your gateway to seamless, hands-free shipping rates and solutions.
- *Ask Siri to "Check FreightValidate":*
  - Activate Siri on your iPhone and ask for a Carrier or Broker verification . Siri is now your personal vetting assistant, ready to assist at your command.
- *Provide Details:*
  - Specify the MC number for the Freight Broker or Motor Carrier.
- *Instant Rate Quote:*
  - Within a mere three seconds, Siri will deliver information about the entity and whether they are able to be "FreightValidated or not. Siri will also advise user if ownership has completed facial recognition.

It's that quick, that simple.

## Why Choose FreightValidate's Siri Integration?

### *Simplicity Redefined:*

- Say goodbye to complicated vetting processes and layers of red flags. With a voice command, get instant results without lifting a finger.

### *Speedy Responses:*

- Time is of the essence. Our Siri-powered system ensures you receive the necessary information in seconds, enhancing your decision-making process.

### *Hands-Free Convenience:*

- We understand the value of your time. Our hands-free system lets you multitask while obtaining crucial verification information effortlessly. Perfect for drivers in the truck and shippers on the dock

### *Accurate and Reliable:*

- Trust the accuracy of our exclusive objective, unbiased & impartial identity and compliance verification platform , giving you the confidence to make informed choices.

FreightValidate's Siri-powered hands-free broker AND Carrier system marks a new era in fighting fraud and double brokers. We're dedicated to simplifying your compliance experience, one voice command at a time. Embrace the future of fighting freight fraud with FreightValidate – where innovation meets efficiency!
